KENYAN LEADERS' DEVELOPMENT RECORD

ISSUE NO. 008

Wilfred Odalo's development record in Mabatini Ward

WILFRED ODALO PROFILE

Hon. Wilfred Oluoch Odalo
MCA, Mabatini Ward, Nairobi County

Date of Birth: November 11, 1978
Nationality: Kenyan

Wilfred Oluoch Odalo is the elected Member of the Nairobi City County Assembly for Mabatini Ward, Mathare Constituency, where he has served through successive terms since 2013.

His career in public service has developed from ward representation into wider responsibilities within the county legislature, particularly in financial management, budgeting and oversight.

He entered county-level public service as the Mabatini Ward representative in 2013 and has remained the ward’s elected representative through the subsequent

Assembly terms. His current Assembly responsibilities give him a significant role in Nairobi’s financial and administrative oversight. Odalo is the Chairperson of the Select Committee on County Finance, Budget and Appropriations, one of the Assembly’s central committees.

The committee examines county budget proposals, appropriation bills, tax estimates, economic and budgetary policies and programmes that have direct financial implications.

He has also been involved directly in the Assembly’s legislative work on county finances. In 2026, he sponsored the Nairobi City County

Appropriation Bill, 2026, while in 2025 he sponsored the Appropriation Bill, Finance Bill and supplementary appropriation measures.

His current committee responsibilities extend beyond finance. He is a member of the Sectoral Committee on Water and Sanitation, which deals with water distribution, regulation, marketing, sewerage and sanitation services.

He is also a member of the Select Committee on Liaison, which follows up on the work and progress of Assembly committees.

Odalo is further a member of the Select Committee on Appointments, which considers appointments

requiring approval by the County Assembly, and the Select Committee on Assembly Business, which is involved in organising and coordinating Assembly business.

His current profile therefore combines ward representation with county-wide responsibilities in budgeting, legislation, oversight and Assembly administration.

His strongest institutional role is in financial oversight, where his position as chair of the Finance, Budget and Appropriations Committee places him at the centre of the Assembly’s consideration of how Nairobi County raises, allocates and spends public resources.

Gumba Road construction strengthens link between Mabatini and Utalii Wards

Report ID: MB-2026-08-00020-I |
Milestone Badge

The construction of Gumba Road in Mabatini Ward forms part of Hon. Wilfred Oluoch Odalo's broader focus on upgrading local infrastructure and opening up better connections for residents of the ward and neighbouring communities.

The road is an important local

infrastructure intervention because it improves connectivity within Mabatini while also strengthening movement between Mabatini and the neighbouring Utalii Ward.

Beyond transportation, a reliable road network supports local economic activity by making it easier for traders, customers, service providers and other road users to move around the area.

Maghorofani Road improves local mobility in Mabatini

Report ID: MB-2026-08-00021-I | Milestone Badge

Maghorofani Road was completed in 2024, marking an infrastructure milestone under the leadership of Hon. Wilfred Oluoch Odalo in

Mabatini Ward. The completion of the road added to Hon. Odalo’s efforts to improve the local road network and make movement within the neighbourhood more reliable. For residents, a completed and usable road can improve access to homes, businesses, markets, public facilities and connecting routes. The road also benefits local traders and service providers by making it easier for customers, suppliers and other road users to reach different parts of the neighbourhood.

Five roads officially opened in Mabatini, expanding local connectivity

Report ID: MB-2026-08-00022-I |
Milestone Badge

Hon. Wilfred Oluoch Odalo officially opened five roads in Mabatini Ward in July 2026, after their successful construction.

The roads are No. 10 SDA Access Road, MCO Access Road, Mouroto Access Road, Dreams Inspiration Road and Dagron 3A Access Road.

Their opening expanded the network of improved local routes available to residents and strengthened connections between different parts of Mabatini.

The completed roads are expected to support local economic activity by making it easier for traders, customers and service providers to move around the ward.

For Hon. Wilfred Oluoch Odalo, the opening of the five roads represents a further step in his sustained infrastructure-development programme in Mabatini.

Kariuki Ngololo Road: Rehabilitation and drainage

Hon. Wilfred Odalo. PHOTO | Hon. Wilfred Odalo

Report ID: MB-2026-08-00023-I |
Milestone Badge

Kariuki Ngololo Road provides a clear example of how Hon. Wilfred Oluoch Odalo's development agenda in Mabatini Ward has addressed both mobility and storm-water management.

The rehabilitation of the road, together with drainage works, is particularly important in a densely populated urban neighbourhood where heavy rainfall can quickly affect

roads, homes, businesses and pedestrian movement.

A functional drainage system helps channel storm water away from the road, reducing waterlogging, erosion and damage to the road surface. Improved road conditions, meanwhile, make movement easier for residents, motorists, traders and service providers.

Under the leadership of Hon. Wilfred Oluoch Odalo, the intervention has contributed to a more accessible and resilient local road network, helping residents move more safely and conveniently while improving access to homes, businesses and other facilities within Mabatini Ward.

No. 3A and Airforce 3A Link roads: Expanding connectivity across Mabatini Ward

The construction of the No. 3A and Airforce 3A Link roads is another notable development delivered in Mabatini Ward under the leadership of Hon. Wilfred Oluoch Odalo.

The project cost Ksh16.86 million, representing a significant investment in improving local connectivity within the ward.

Link roads are particularly important in a densely populated urban area because their value is often experienced directly by residents. They connect residential areas with larger roads, markets, public facilities and neighbouring settlements, making everyday journeys shorter and more convenient. For Mabatini Ward residents, improved link roads can mean easier access to work, schools, businesses, health services and public transport. They can also improve the movement of goods and services and make previously difficult routes more accessible.

The project therefore forms part of Hon. Odalo's broader effort to strengthen Mabatini's local road network and improve everyday mobility for residents.

Hon. Wilfred Odalo. PHOTO | Hon. Wilfred Odalo

Report ID: MB-2026-08-00025-1 | Milestone Badge

Eden and Legio Maria roads represent another crucial intervention delivered under the leadership of Hon. Wilfred Oluoch Odalo in Mabatini Ward.

The roads have been constructed to cabro standard together with drainage works, combining improved road surfaces with measures designed to manage storm water. The combination is valuable neighbourhoods, where poor roads and inadequate drainage can disrupt movement during rainy periods.

Better road surfaces have made routes in Mabatini Ward more usable for pedestrians, motorists and businesses, while good drainage systems have helped protect the roads from deterioration caused by standing or flowing water.

For residents in Mabatini, the improvements enhance access to their homes, businesses and surrounding facilities while making their everyday movement more reliable.

The projects also demonstrate the practical nature of ward-level development. Rather than focusing only on large flagship projects, Hon. Wilfred Oluoch Odalo’s development record includes a series of targeted local interventions that collectively improve connectivity and living conditions across Mabatini.

Ngumba Bridge Lane, Mau Mau and Mama Biko roads: Strengthening local connectivity in Mabatini Ward

Report ID: MB-2026-08-00026-I |
Milestone Badge

Hon. Wilfred Oluoch Odalo has rehabilitated Mau Mau Road and Mama Biko Road as part of his continued effort to improve Mabatini Ward's local road infrastructure.

The road rehabilitation has a direct impact on the daily lives of Mabatini residents, especially where roads serve pedestrians, motorists, businesses, public transport operators and emergency services.

Improved roads make movement within the neighbourhood easier and more reliable while supporting access to homes, shops, schools, markets and other essential facilities. Better road conditions can also reduce difficulties

associated with potholes, poor surfaces and impassable sections, especially during rainy weather.

The rehabilitation of Mau Mau Road and Mama Biko Road therefore adds to Hon. Wilfred Oluoch Odalo's broader record of strengthening local

connectivity in Mabatini.

The Ngumba Bridge Lane component is particularly relevant because bridge approaches and connecting routes can support both mobility and storm-water management.

By investing in practical road

improvements, his development agenda has focused on infrastructure that residents encounter and depend on every day, helping create more accessible neighbourhood routes and supporting local economic activity.

Nyalgunga Link Road: Opening up neighbourhood access in Mabatini Ward

Report ID: MB-2026-08-00027-I |
Milestone Badge

Nyalgunga Link Road forms part of Hon. Wilfred Oluoch Odalo's continuing road-development agenda in Mabatini Ward.

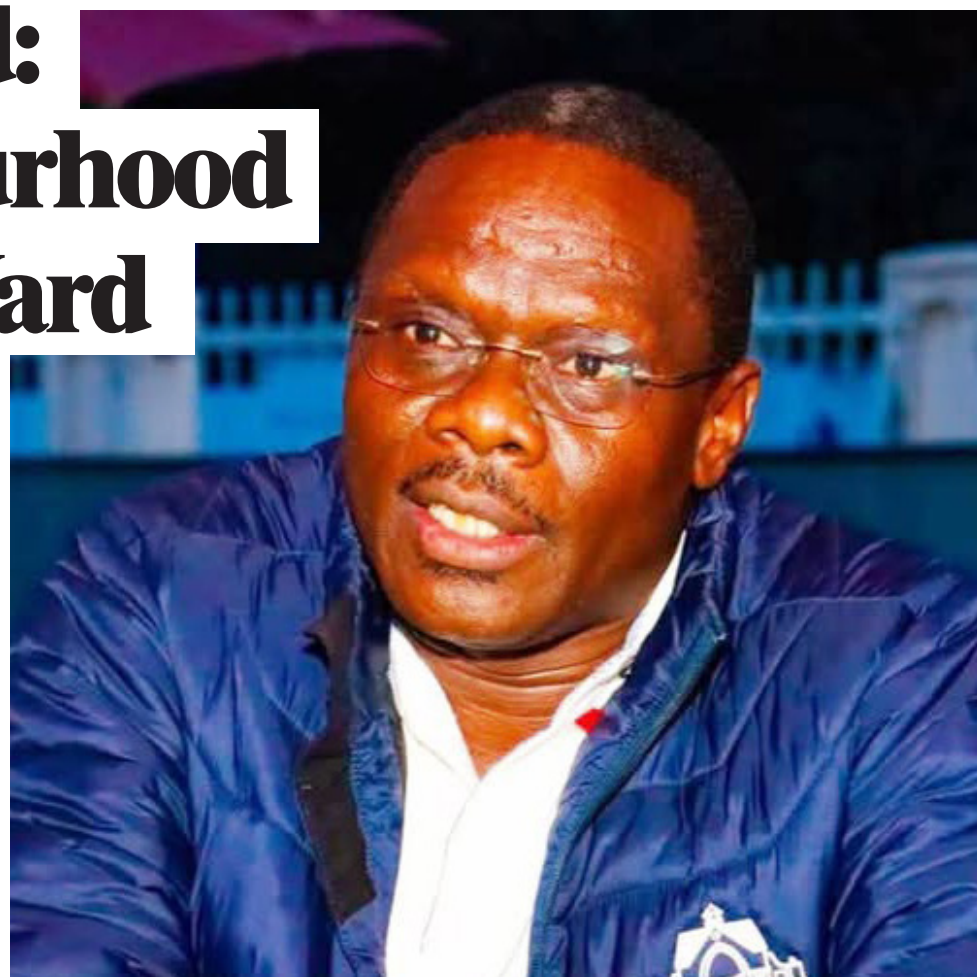

The improvement of local link roads is important in a Mabatini ward because residents depend on short connecting routes to move between residential areas, main roads, businesses, markets and public facilities.

For many residents, the condition of these local roads determines

how easily they can reach their destinations on a daily basis.

The works also contribute to a more connected neighbourhood by strengthening routes that complement the ward's larger road network.

Through interventions such as Nyalgunga Link Road, Hon. Wilfred Oluoch Odalo's development record reflects attention to practical infrastructure needs at the community level, where even relatively short road links can make a significant difference to everyday mobility and access.

13C Link Road: Extending road access to more parts of Mabatini

Report ID: MB-2026-08-00028-I |
Milestone Badge

Hon. Wilfred Oluoch Odalo's programme of constructing the 13C and Muroto Link Roads in Mabatini Ward began in the 2024/25 Financial Year.

The projects demonstrate the continued expansion of the ward's local road-development agenda into the 2024/25 financial year, building on his earlier infrastructure interventions undertaken in Mabatini.

Link roads improve connections between residential areas and the wider transport

network that leads to access workplaces, markets, schools, public services and other essential destinations. They can also improve the movement of goods and services and provide more reliable routes for pedestrians and motorists.

The 13C and Muroto Link Roads therefore form part of Hon. Wilfred Oluoch Odalo's continuing focus on practical infrastructure that responds to the everyday mobility needs of Mabatini residents.

Their inclusion in the ward's development programme demonstrates that road improvement has remained an ongoing priority under his leadership.

Mabatini boreholes and elevated water tanks: Addressing Mabatini's water needs

Report ID: MB-2026-08-00029-I |
Milestone Badge

Water infrastructure is an important part of the development challenge in Mabatini Ward, where reliable access to water directly affects households, institutions and local economic activity.

In the 2024/25 Financial Year, under the leadership of Hon. Wilfred Oluoch Odalo, borehole sites were proposed for drilling at the grounds near Legio Maria Church and Mathare Vocational College.

The proposed projects included drilling and equipping the boreholes with elevated pressed-panel steel tanks mounted on steel towers. Such infrastructure would strengthen local water access by providing additional sources and storage capacity within the ward. This could benefit households and institutions while reducing the difficulties associated with unreliable water availability.

Odalo's Mabatini sewerage and sanitation efforts

Report ID: MB-2026-08-00030-I |
Milestone Badge

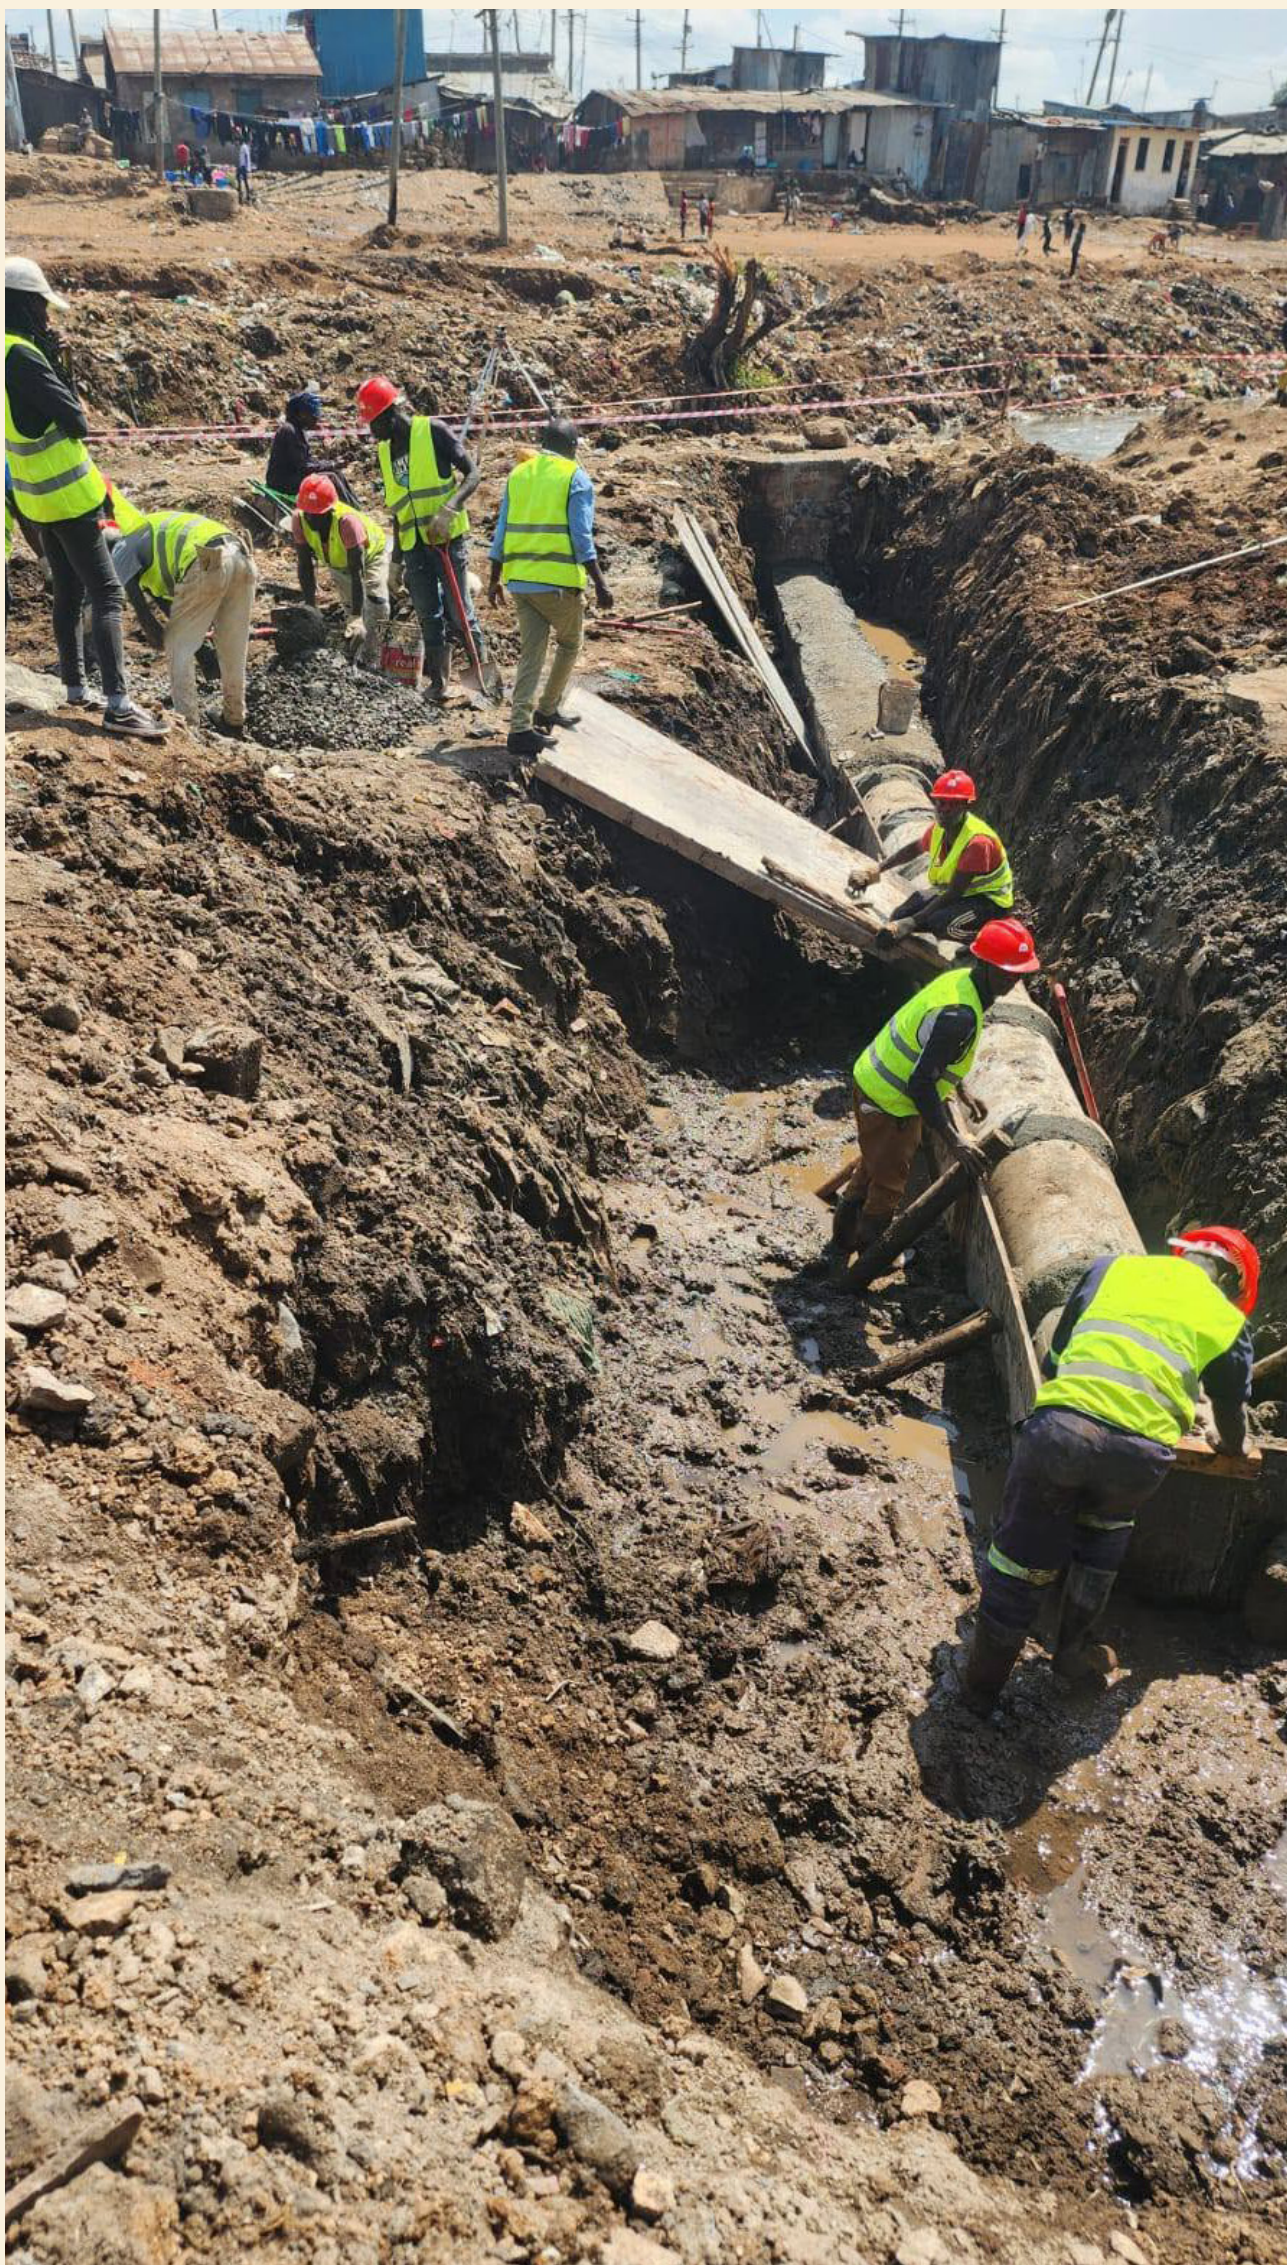

Under the leadership of Hon. Wilfred Oluoch Odalo, Mabatini Ward has had a sewer-extension project with an allocation of Ksh5 million.

Sewerage and sanitation infrastructure is particularly important in densely populated urban communities, where inadequate wastewater management can affect public health, the environment and the general quality of neighbourhoods.

A functional sewer network can improve the safe management of wastewater, reduce reliance on inadequate disposal systems and contribute to cleaner surroundings. For residents, improved sanitation infrastructure can support healthier living conditions and a more dignified urban environment.

The sewer-extension programme therefore represents an important dimension of Hon. Wilfred Oluoch Odalo's development agenda in Mabatini, complementing his focus on roads, drainage and water infrastructure.

By including sanitation among the ward's development priorities, his record extends beyond visible road construction to essential infrastructure that supports the long-term wellbeing and resilience of the Mabatini community.

Odalo’s oversight of Mabatini development projects and resources

Report ID: MB-2026-08-00032-I | Milestone Badge

An elected ward representative’s development record extends beyond physical projects. Effective oversight is also an important part of public leadership because it helps ensure that development resources are used

for their intended purpose. Hon. Wilfred Odalo’s Assembly career has included financial, public-accountability and sector committee responsibilities, giving him platforms through which he can scrutinise public programmes and seek answers on implementation. His intervention concerning Ngumba Market provides a

concrete example of this role. By seeking information about the project and raising concerns over its implementation, he used the Assembly’s oversight mechanisms to pursue accountability on an issue affecting his constituents. This matters to Mabatini residents because projects financed through public resources require proper implementation and follow-up. Hon. Odalo’s committee responsibilities have also extended beyond individual ward projects, including scrutiny of County finances and sector performance, strengthening his ability to participate in broader accountability and resource-oversight processes.

Shaping Mabatini’s development through budget oversight

Report ID: MB-2026-08-00033-I | Milestone Badge

Budget oversight is the bridge between development priorities and the public resources required to implement them. Hon. Wilfred Odalo currently chairs the Nairobi City County Assembly Finance, Budget and Appropriations Committee, a position that places him at the centre of important processes through which County revenue and expenditure proposals are scrutinised and development allocations considered. For Mabatini residents, this

responsibility has significance because budgets determine how public resources are prioritised across sectors and development needs. Hon. Odalo’s participation in the Water and Sanitation Committee further gives him a role in oversight of the County’s water and sanitation portfolio. This role is distinct from executive implementation, but it provides an avenue for scrutiny, accountability and policy oversight. His responsibilities therefore extend beyond individual projects in Mabatini to participation in the wider financial and development processes that shape the delivery of public services.

Bursary support helps students overcome financial barriers to education

Report ID: MB-2026-08-00031-I | Milestone Badge

Hon. Wilfred Oluoch Odalo has made education support an important part of his development programme, using bursary assistance to help students from families facing financial challenges remain in school. In 2024, for instance, Odalo offered bursary support to hundreds of students from Mathare

slums who had submitted their names and had not yet joined Form One to proceed to school. The intervention addressed an immediate financial barrier for families struggling to meet education-related costs. The initiative reflects the importance of targeted education support in a low-income urban community such as Mabatini ward, where the cost of schooling can place significant pressure on households. By helping students overcome

financial obstacles, bursaries can improve access to education and give young people a greater opportunity to continue their studies. This has been his commitment over the years. For instance, in 2025, he presided over the issuance of bursary forms to students at Undugu Grounds. He described the support as a means of removing financial barriers on the path to education. Through these interventions, Odalo has placed education support among the programmes aimed at expanding opportunities for young people and supporting families in his ward.

Creating work and skills opportunities for Mabatini youth

Report ID: MB-2026-08-00034-I |
Milestone Badge

Youth employment is an important part of Mabatini Ward's development story because local infrastructure projects create opportunities for young people and other residents to participate in the local economy.

Under Hon. Wilfred Oluoch Odalo's development agenda, projects such as road construction, drainage and other physical works have generated temporary employment and opportunities for local labour during implementation.

Such opportunities provide young people with income while exposing them to practical skills and work

experience. Apprenticeships and engagement of local workers in Mabatini also help residents build experience that may be useful beyond an individual project.

The broader benefit is that development spending circulate within the local community when residents are able to participate in the work associated with

infrastructure delivery.

Youth employment and local labour therefore complement Hon. Wilfred Oluoch Odalo's physical development record, linking investment in Mabatini's infrastructure with opportunities for residents to earn, acquire skills and participate directly in the ward's development.

Hon. Wilfred Odalo addressing Mabatini Ward residents. PHOTO | Hon. Wilfred Odalo

ABOUT MILESTONE BADGE

www.milestonebdage.co.ke

Milestone Badge is a dynamic digital platform that documents completed projects, reforms, and public welfare programmes delivered by Kenyan leaders since 2013.

The platform releases a new report every two weeks, with each report containing multiple records, each assigned a unique ID for identification and reference.

Reports are distributed directly to subscribers via email and WhatsApp and are also available for free download, ensuring broad accessibility and serving as a reliable, long-lasting reference for development milestones across Kenya.

Milestone Badge exists to help citizens, researchers, and voters clearly understand how leadership translates into measurable outcomes on the ground.

Platform statement

Milestone Badge documents evidence-based milestones and does not provide political opinions or endorsements.
